Government of South Australia
Department for Education

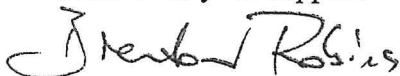

Dear parents / carers

While our state schools remain open, the Department for Education yesterday issued the directive that parents &/or carers are to drop and collect their children 'at the gate' of schools. In the interests of keeping your child/children and our other students safe and well, please adhere to this practice. As you know we have a teacher on duty from 8.30 every morning. You can drop & collect your child at the closest entrance or use our Kiss'n'Drop area. If you need to drop or collect your child during lesson times please continue to do this through the front office.

The department has also supported families 'self-quarantining' and keeping their child/children home. If you choose to do this, please let us know so that we can enter the absence code as 'F' (family) rather than 'U' (unexplained). An exemption is not needed at this time. If your child is at school and becomes unwell we will contact you to collect them if possible.

As we remain open, we will continue to provide lessons as usual at school. At this stage teachers are able to offer suggestions for on-line learning and other opportunities as well. While some teachers are sending home specific work relating to a project or unit of work, there is not a requirement at this time for our teachers to provide packs of work. If our state schools close however, our school & our department will provide further information & resources regarding learning from home.

Thanks for your support.

Brenton Robins
Principal
